ENGINE & SPARE PARTS SPECIALIST FROM 1983

MEC-DIESEL S.p.A. is one of the most important European suppliers of spare parts for trucks, commercial vehicles, bus, passenger cars, agricultural and earthmoving machinery in the **Independent Aftermarket (IAM)**.

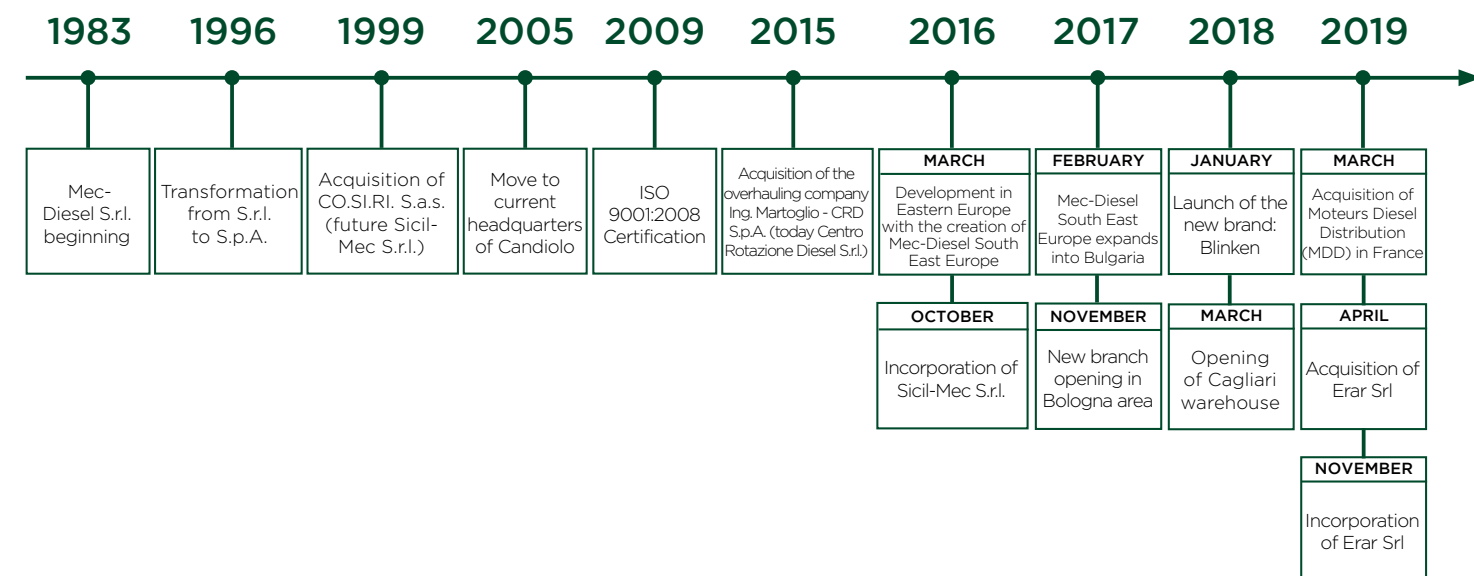

The company was founded in **Turin**, Italy, in **1983**. Today it has 25 sales points in Europe: 4 in **Italy**, 12 in **Romania**, 8 in **Bulgaria** and 1 in **France**. The proximity to the customer allows to guarantee an excellent service by delivering the spare parts as quickly as possible.

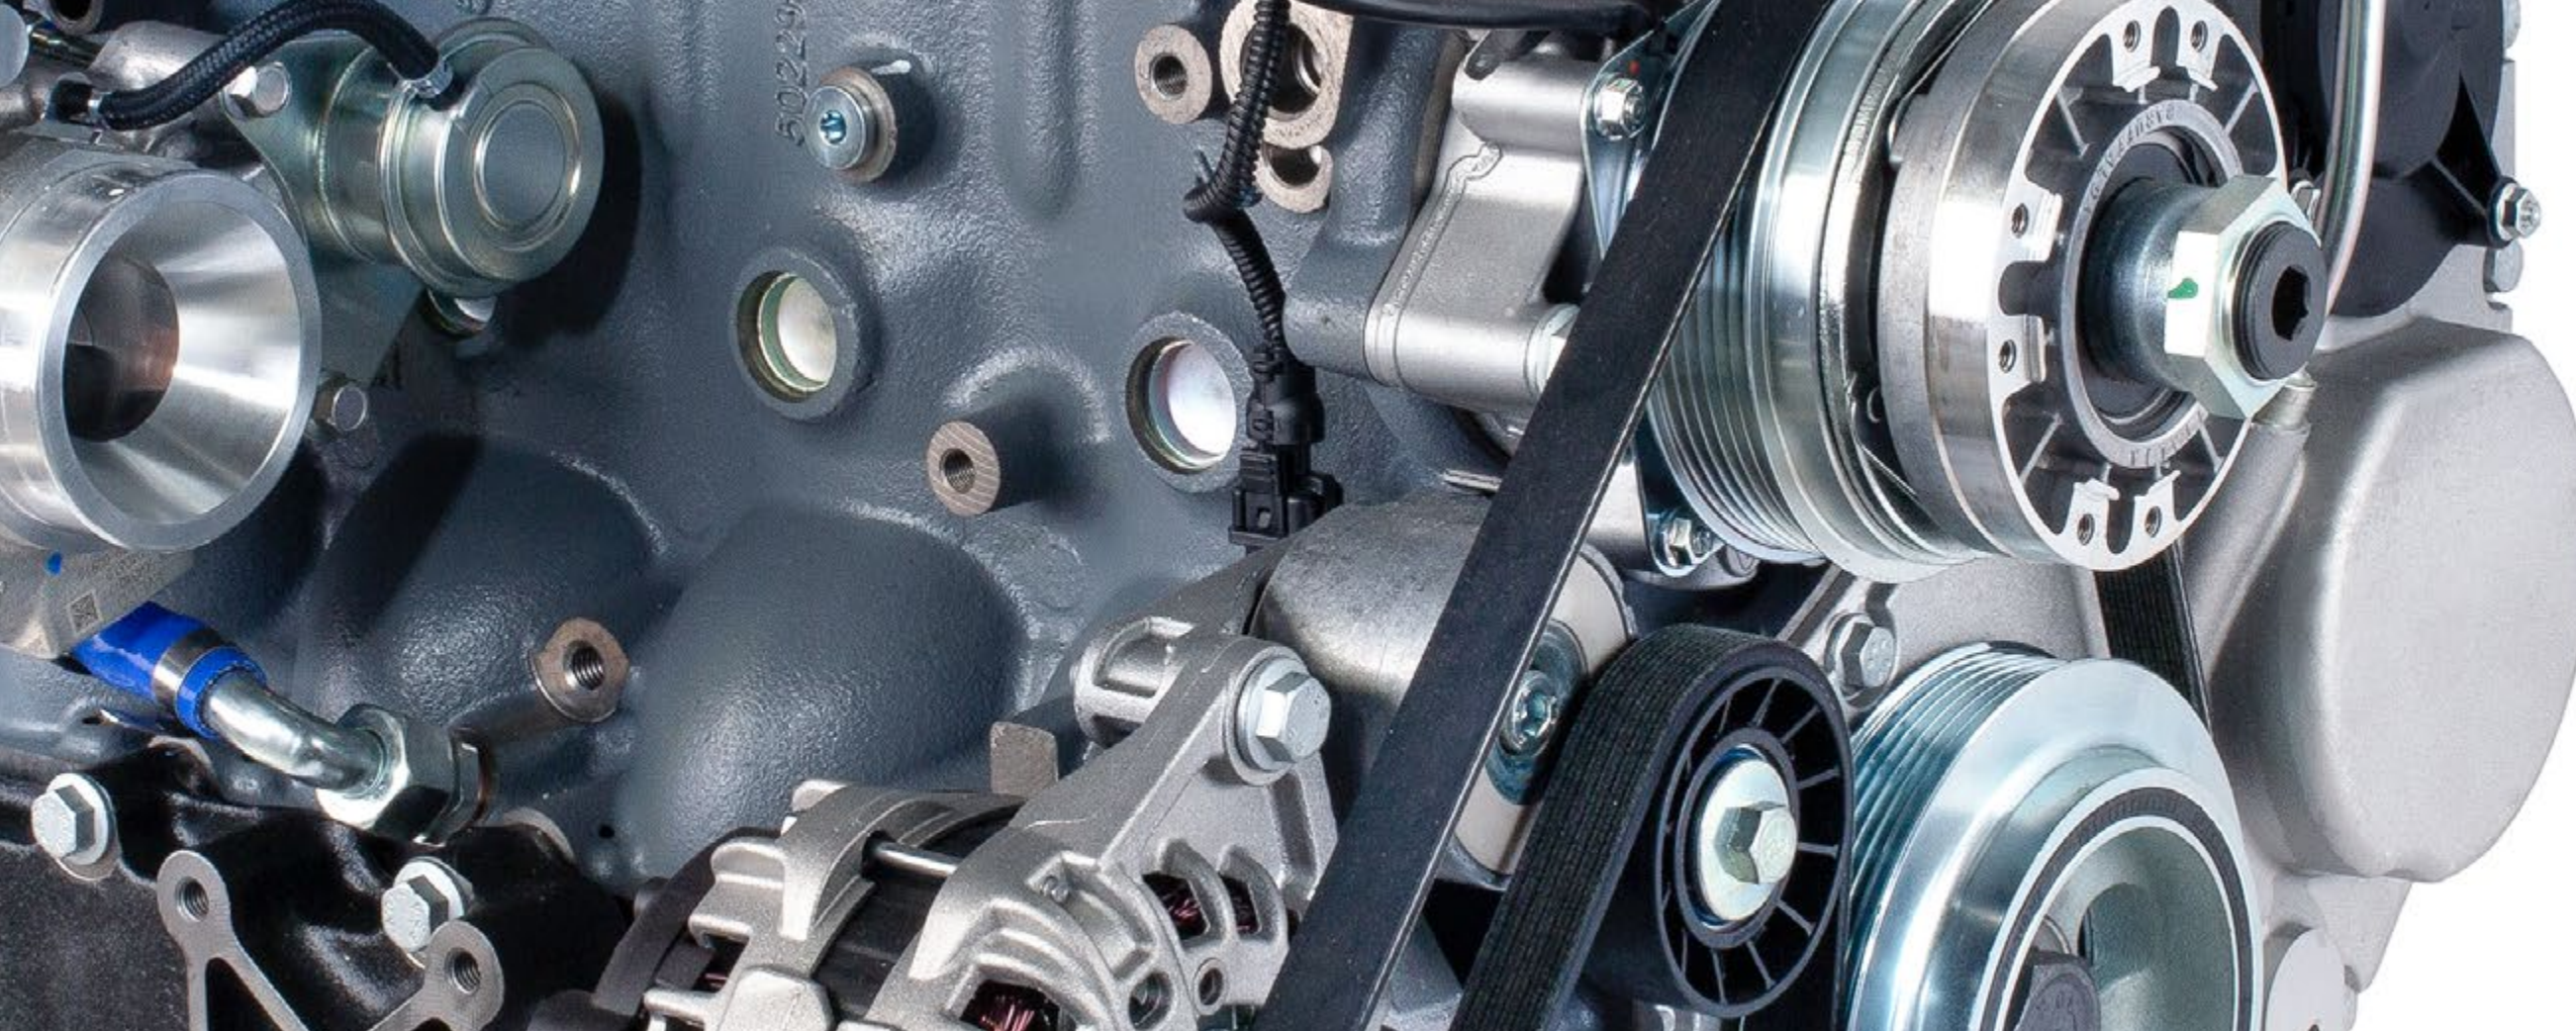

Specialized in engine spare parts with its private label **Mec-Diesel**, the company has expanded its range to third-party products over the years. Following this philosophy, there are three product divisions on which the Turin-based company can count, **Mec-Diesel**, **Blinken** and **Erar**. The first involves engine spare parts; the Blinken brand line born in 2018 includes electrical components, rotating machines, the injection and cooling system; the most recent born in 2019, Erar, involves lighting division, the braking and compressed air system, body and suspensions.

The main core business is related to the engine for Italian applications, IVECO and FIAT. It is perceived by the technical expertise of our Mec-Diesel staff, able to identify the right spare part and to find them always available in stock.

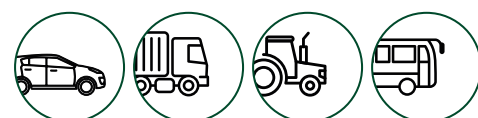

CHRONICLE

EVERYTHING FOR YOUR ENGINE

Mec-Diesel S.p.A. offers own-brand engine spare parts for passenger cars, commercial vehicles and industrial applications.

SPARE PARTS BEYOND THE ENGINE

Blinken is born from the Mec-Diesel Group experience of over 35 years in the Aftermarket, as a parallel Business unit brand dedicated to the development of additional spare parts offer.

Blinken division offers a wide range of technologically advanced products from trucks to passenger cars; high quality at the best value for money.

Blinken distributes spare parts for 14 product families: alternators and starters, glow plugs, air flow sensors, denox, EGR, fuel feed units, diesel injection, sensors, thermostats, cooling, heat exchangers, thermal system and electrical spare parts.

BLINKEN
AUTOMOTIVE SOLUTIONS

Erar division is the result of the incorporation of the homonymous company in Mec-Diesel group.

The products division is focused on new products sectors suitable for industrial vehicles and buses: lighting, braking and compressed air system, body, suspensions and safety signs.

Like all Mec-Diesel products, Erar spare parts are carefully selected to meet the needs of a market that is increasingly searching for high quality standards at the best possible price.

ERAR

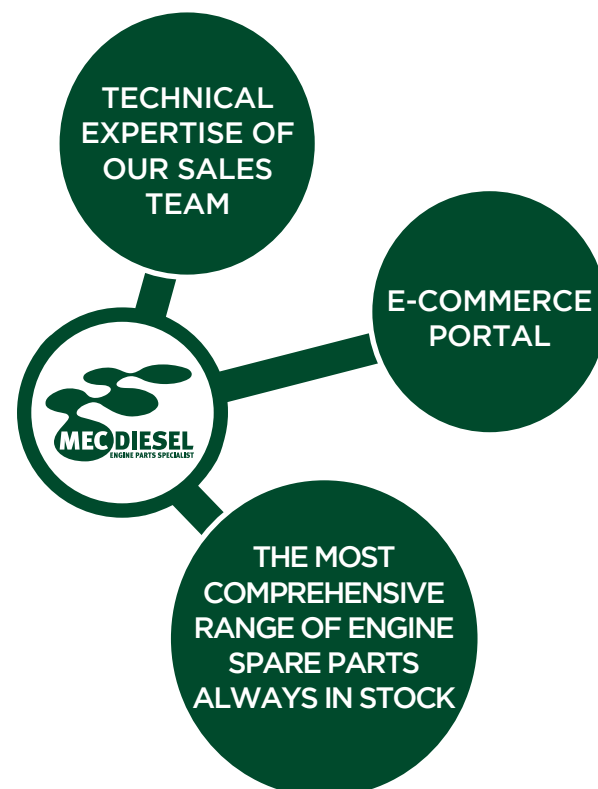

SERVICES AND ASSISTANCE

Mec-Diesel S.p.A. supports the quality of its product with an excellent **technical expertise** of its internal and external sales teams; constant **availability** of the catalogue spare parts and **quick** order management.

For Mec-Diesel the excellence of **customer service** is a key value to invest in. One of the greatest achievement for the company is to perceive the customer's satisfaction when they repair their engine quickly and at a reasonable costs.

Working with Mec-Diesel means having a wide range of products ready to be shipped as soon as they are ordered. Investments in logistics equipment and new storage technologies, as well as the solid partnership with the most important national and international shipping agents enable to dispatch orders within the same day.

Continuous product research and development ensures the improvement of production process to provide customers with an increasing quality.

SERVICES AND ASSISTANCE

Technical Skills

The technical skills acquired over the years by our Sales Teams are one of the greatest strengths within our company. Your personal local agent & our customer service are at your disposal as an aid to perform your job better.

Responsiveness and high service level

Most of the spare parts are always in stock, ready to be shipped. Investments in logistic equipment and new storage technologies allow us to dispatch every order within the same day and deliver it in the shortest time possible.

Philosophy of quality

We pay great attention our products' quality in order to provide our customers with spare parts with the best possible quality at the lowest possible price. The cooperation with leading Italian and foreign suppliers guarantees the highest quality standards.

Advanced search on Webshop

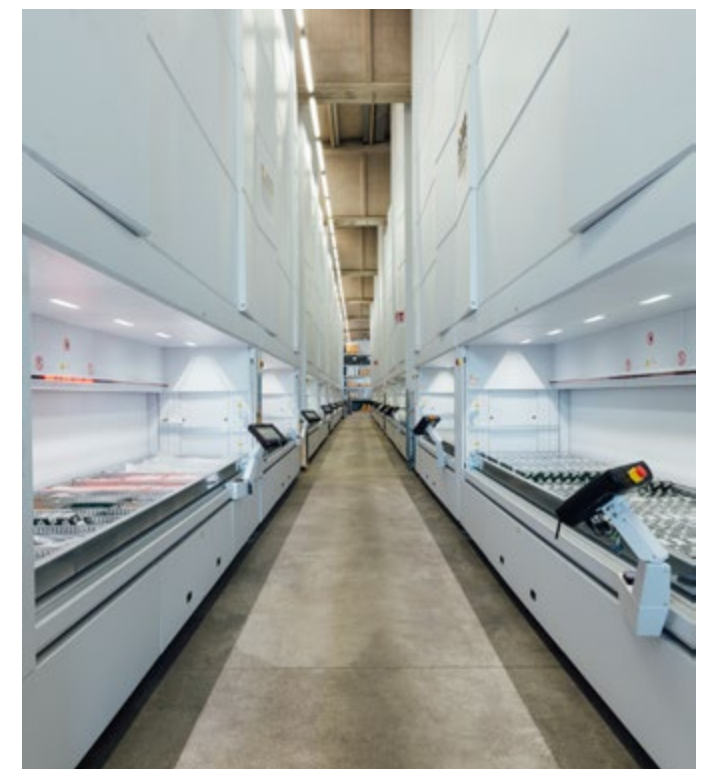

Our Webshop allows customers to place orders quickly and easily. With advanced search system you can find the necessary spare parts looking by Mec-Diesel reference, original reference, engine type, model, brand, VIN and product line.

We continue to grow vertically with the new automatic warehouses!

The continuous research and development on the products, the availability in our warehouses and the quick deliveries allow to guarantee the best possible service to the customer.

Our offer is constantly growing; as a result the efficiency and management of our warehouse constantly increases through modern and state-of-the-art facilities, such as vertical automatic warehouses.

More than 20 automatic warehouses are installed in the headquarters of Candiolo (TO) today.

E- COM MERCE

Mec-Diesel S.p.A. gives a special value to the e-commerce, accessible through the official website.
This is an online catalogue where you can find the product details, through which the customers can make their orders in the easiest way possible.

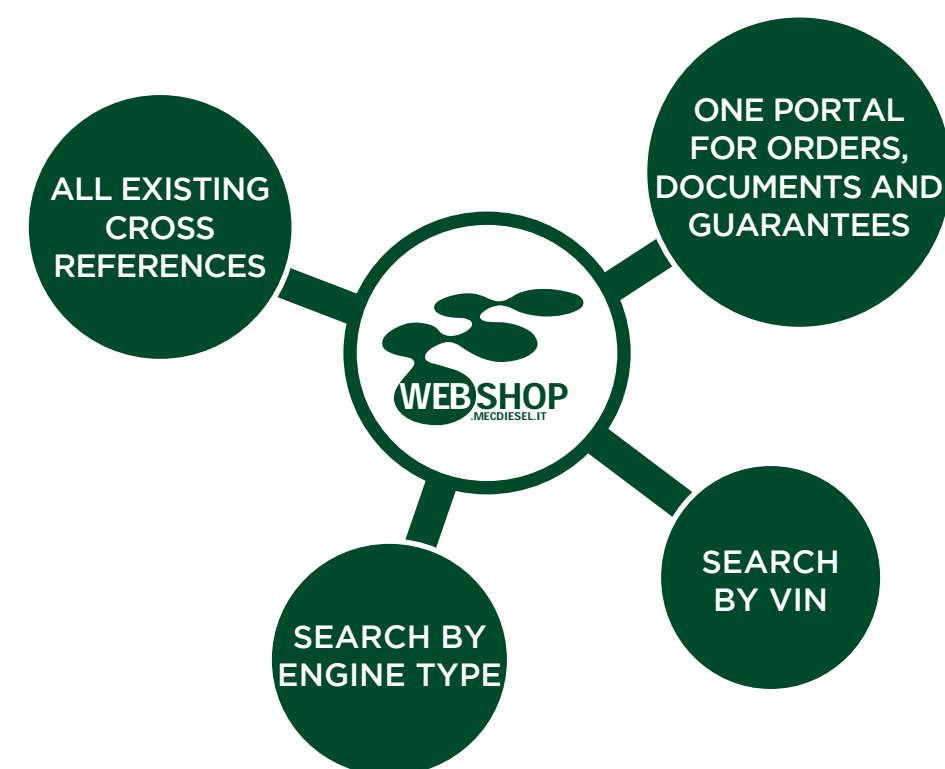

The e-commerce has intuitive and quick functions: by linking to <http://webshop.mecdiezel.it> you can find and buy all the items you need researching by product reference (Mec-Diesel, original and competitor's codes), engine types, vehicles models, VIN, product line and brand.
The shipment cost of purchased products is charged as soon as the order is received in order to quickly meet customer's needs.

You can also submit warranty claims directly from the portal and consult the archive of all your documents (offers, delivery notes and invoices) and also the shipment tracking number.

The access to e-commerce is universal: you can search, order and buy items through any mobile device such as laptops, tablets and smartphones.
