ERAR SPARE PARTS FOR INDUSTRIAL VEHICLES AND BUSES

MEC DIESEL

SPARE PARTS SPECIALIST

ERAR brand is the result of the fusion between the company of the same name and **Mec-Diesel**.

The products division is focused on new products sectors suitable for industrial vehicles and buses: lighting, braking and compressed air systems, body and suspensions.

Erar products are carefully selected to meet the needs of a market that is increasingly searching for high quality standards at the best possible price.

The excellent technical expertise of our internal and external sales teams, along with the constant availability of spare parts and the quick order management guarantee the best possible service to the customer.

The technical expertise and the widespread coverage of the national territory make Mec-Diesel the spare parts specialist for trucks and commercial vehicles. The enthusiasm leads our work every day, trying to convey our passion to those who have chosen to work with us.

LIGHTING DIVISION

■ Wide range of products from advanced technologies.

The lighting catalogue offers the widest range of products on the market, including all applications for motor vehicles and trailers.

There is a wide range of products for both primary equipment and equivalent quality products.

These products are characterized by the most advanced technologies.

COD. VG168590
REAR LAMP

■ **OE REF:** 99463243
■ **Applications:** IVECO Daily, Eurocargo

COD. MDPR0155DX
MDPR0155SX
HEAD LAMP

■ **OE REF:** 5010578475
■ **Applications:** RENAULT Premium

COD. MDFR2713DX
MDFR2713SX
LED REAR LAMP

■ **Applications:** Trailer

COD. NL0077
LED WORK LIGHT

LIGHTING DIVISION

■ Wide range of products from advanced technologies.

The advanced technologies are: LEDs for all functions, printed circuit boards, neon effect LED, the built-in resistance in the trailer light to control the error on the direction indicator, additional connectors for extra applications.

**COD. MDPR0035DX
MDPR0035SX
HEAD LAMP**

■ **OE REF:** 504238093
■ **Applications:** IVECO Stralis,
Eurocargo

**COD. MDSM0194CG
LED SIDE MARKER**

**COD. MDIG0017
LED SIDE MARKER**

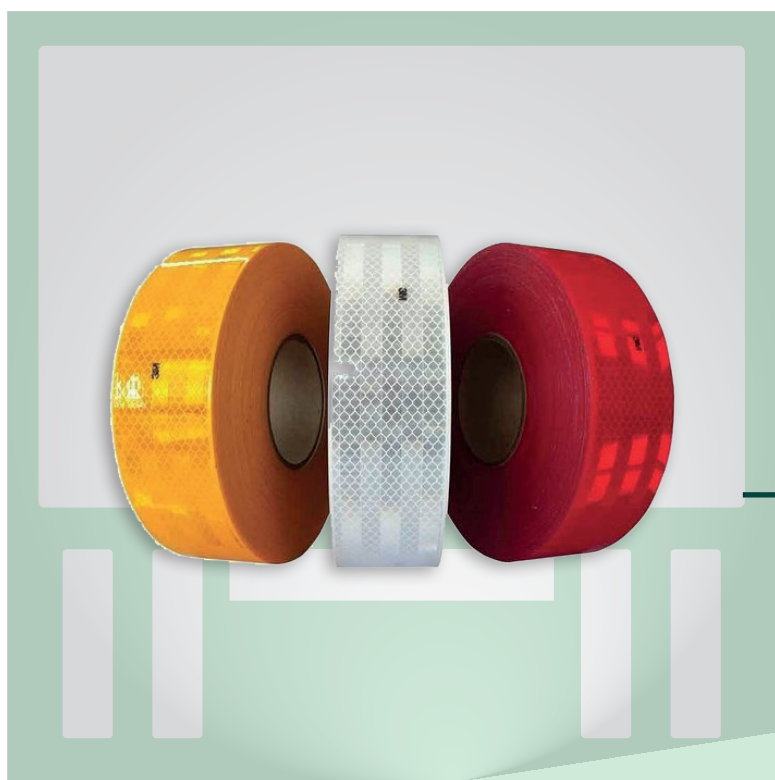

**COD. MDLT0033N / MDLT0033R
LICENSE PLATE LAMPS**

SAFETY SIGNS

■ Accessories and signs for commercial and industrial vehicles.

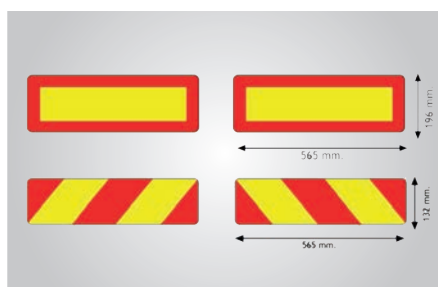

The following products are part of the safety signs line: retro-reflective and fluorescent rear panels for trucks, tractors and trailers; retro-reflective strips for linear edging and contours of motor vehicles, trailers and semi-trailers; leaning load panels; adhesive markings for vehicles according to A.D.R. standards; warning panels.

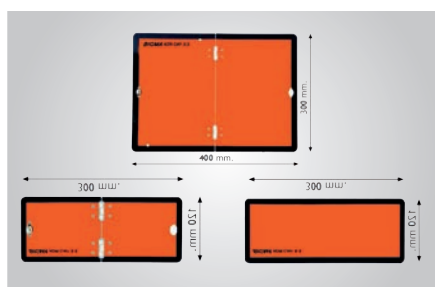

**COD. REF7165
REF7167
REF7168**

**TAPES
50MT X 50MM
FOR RIGID SURFACES**

**COD. RFX90043
RFX90044
SIGNALLING PANEL**

**COD. RFX91208
RFX91216
FOLDABLE SIGNALLING PANEL KIT ADR**

AIR SPRINGS

■ Special attention to product quality.

Air springs with shock absorbers constitute the air suspension of vehicles and trailers and they allow high performance in terms of comfort and safety. The air spring consists of a flexible casing made of rubber, containing compressed air inside and fixed to metal elements (or composite material).

COD. GA277.2.500
AIR SUSPENSION

■ OE REF: 67306

COD. GA278.1.510
AIR SUSPENSION

COD. GA289.0.350
AIR SUSPENSION

■ OE REF: 2997755

■ Applications: IVECO Eurocargo

COD. GA304.1.510
AIR SUSPENSION

■ OE REF: 81.43600.6035

■ Applications: MAN TGA/TGS

SCHOCK ABSORBERS

■ Expanding range.

Shock absorber has the task of managing the oscillations of the weight of the vehicle structure. It ensures the adherence of the vehicle to the road surface in all conditions through the suspension,

COD. 807052
SHOCK ABSORBER,
CAB SUSPENSION

■ OE REF: 42555629

■ Applications: IVECO Eurotech MT 180

COD. 807191
SHOCK ABSORBER,
CAB SUSPENSION

■ OE REF: 5802483373

■ Applications: IVECO Stralis, Trakker

COD. 807194
SHOCK ABSORBER,
CAB SUSPENSION

■ OE REF: 504080348

■ Applications: IVECO Stralis, Trakker

COD. 807195
SHOCK ABSORBER,
CAB SUSPENSION

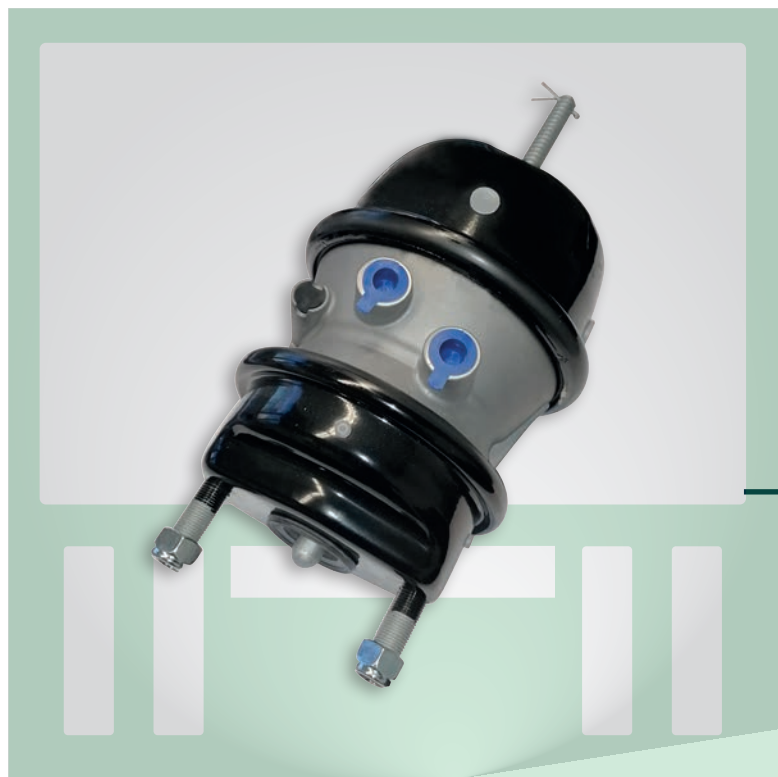

■ OE REF: 5802483381

■ Applications: IVECO Stralis

COMPRESSED AIR

■ Elements part of the brake system.

Compressed air is the main energy source of all air brake systems. The main component of the air supply is the compressor itself. Normally the compressor is driven by the vehicle engine and generates the compressed air required for all pneumatic systems.

COD. BEC4771605
SPRING-LOADED CYLINDER

- OE REF: 05444440010
- OE KNORR BREMSE: BS7324

COD. BERAD1832
CONNECTOR/DISTRIBUTOR
PIECE

- M16X1,5 - T8

COD. BEG5500010 RED
BEG5500011 YELLOW
COUPLING HEAD

- OE REF: 048415011
- Applications: Rimorchio
M16X1,5

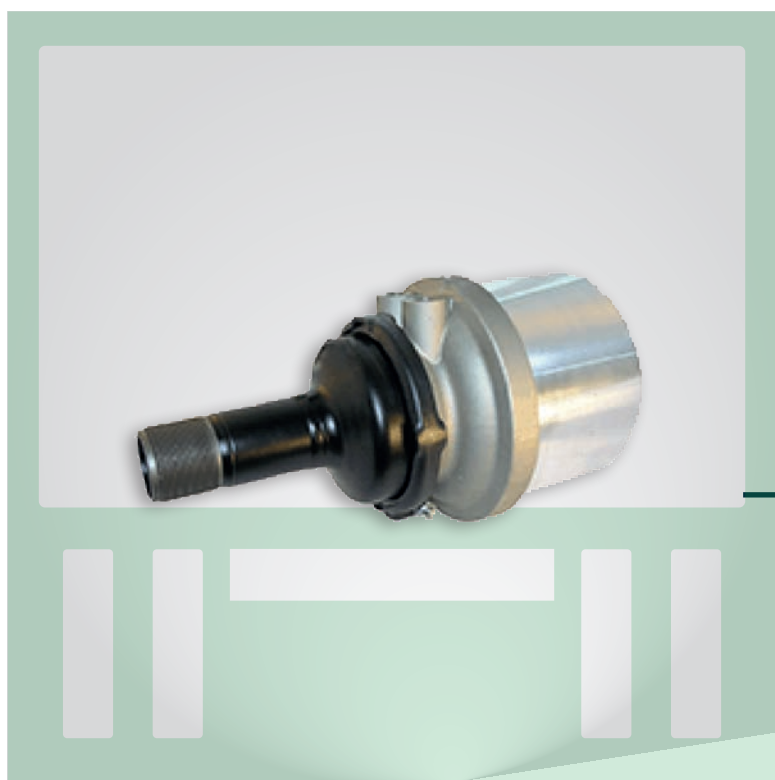

COD. BEM2368000
BRAKE POWER REGULATOR

- OE REF: 1518856
- Applications: IVECO BUS

COMPRESSED AIR

■ Elements part of the brake system.

Compressed air is the most important operating fluid in the commercial vehicle sector. It is generated by the compressor and driven through the air treatment unit into the compressed air tanks, where it is stored. During a braking or load change, the compressed air is driven to the actuators or air suspensions to the valves or control modules.

COD. BDW6801420
MULTI-FUNCTION BRAKE CYLINDER

■ OE REF: 99446701

COD. BCT6402400
DIAPHRAGM BRAKE CYLINDER

■ OE REF: 0544415011

COD. BCC5801200
CIRCLIP, GUDGEON PIN

■ OE REF: 203273800

COD. BDP9402415
MULTI-FUNCTION BRAKE CYLINDER

■ OE REF: 504093812

■ Applications: IVECO Stralis

BRAKING SYSTEM

■ A wide selection of different spare parts.

The three main braking systems are characterised by the following technologies: pneumatic, where compressed air is the protagonist; mechanical, when the actual braking force is generated mechanically by disc brakes; electronic, distinct from electronic control systems that can send instructions to the main modules and valves.

COD. ASPD116K1
BRAKE PAD SET, DISC BRAKE

COD. ASPD120K
BRAKE PAD SET, DISC BRAKE

■ OE REF: 2992336

COD. ASPD129K
BRAKE PAD SET, DISC BRAKE

■ OE REF: 503139523

COD. AS19109/110.00
BRAKE LINING, DRUM BRAKE

■ OE REF: 2992113

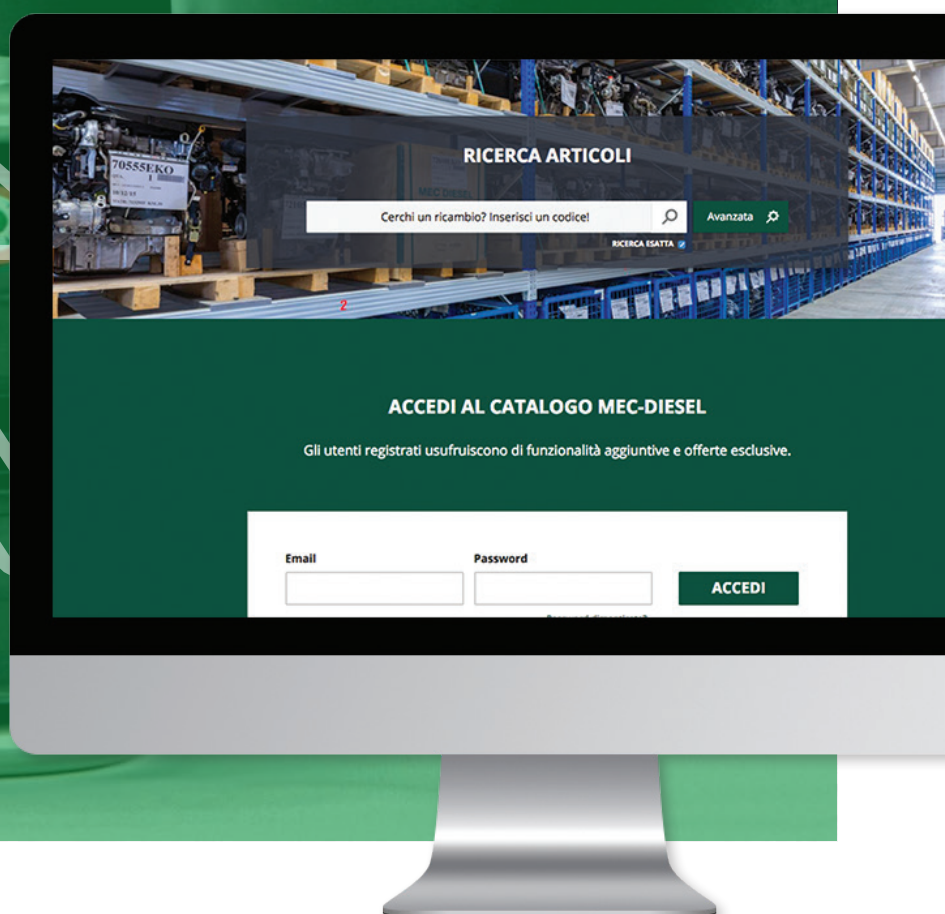

■ Applications: IVECO Trakker

The OE references and pictures are given for the purpose of explanation only.
