Mec-Diesel is constantly growing to ensure effective coverage of the territory by getting closer and closer to customer needs.

**DISTRIBUTION
NETWORK**
branches & logistic hubs

To offer a more and more efficient service and guarantee the reduction of the delivery time, *the Mec-Diesel group sees its logistic hubs strategic to ensure coverage of the territories.*

Following the expansion in Italy, the company extended its borders abroad by opening several branches and warehouses *in order to reach new markets and operates better in the one already served.*

Mec-Diesel believes in the value of every single employee and in their professional growth. The structured training path «*Mec-Diesel Academy*», that maintains *the know-how gained on the engine and the engine repairing products*, enable the company to pair the knowledge of the sales team to the quality of the products.

Customer loyalty and strong relationship have involved the need of an articulated sales structure, composed by professionals for *better local and national management*.

**FACILITY AND
LOGISTIC**
innovation and growth

The strategy concerning the widening of storage spaces includes also the opening of logistic hubs to strengthen the customer service and to deeply reach both the domestic and abroad markets

The large availability in stock and the solid partnership with the most important national and international shipping agents enable Mec-Diesel to dispatch orders within the same day.

THE SPARE PARTS SPECIALIST

Mec-Diesel, becoming increasingly well-know in the domestic and foreign territories, successfully carries out an established development activity *to ensure a constantly evolving range in line with market trends.*

MEC-DIESEL BRAND
registered

Products with reliability and quality
equal to a premium brand for engine
and engine repairing.

2018

BLINKEN BRAND
registered

Brand created to research and
develop high-quality products that
go beyond the engine.

2020

PRIVATE LABELS

ERAR BRAND
registered

Brand specialized in the development of spare parts for trailer. Quality and reliability are the key-points in the enlargement of the range.

Responsiveness, innovation and solidity allow the group to distribute different spare parts: *original, aftermarket and private label branded.*

The products branded *Mec-Diesel, Erar and Blinken* ensure high quality at the best value for money and are a valid alternative to original products.

MEC-DIESEL PARTNERS

Important leading automotive companies *have decided to support Mec-Diesel*: those partnerships enable the company to offer to the customer *an always expanding range of products*.

➤ TECDOC
Certified data suppliers

➤ ISO 9001:2008
Certified quality

The intuitive advance search system allows you to find the spare part needed through: Mec-Diesel or OE reference, engine types, vehicle model, VIN, product line and brand.

The webshop is an online catalogue where information and details of the products can be found and by which *the customer can make an order in the easiest way possible.*

E-COMMERCE
webshop and catalogue

WEBSHOP

The Webshop makes the order process quickly and easily.

The shipment of the purchased products is taken over as soon as the order is received, to quickly meet the customer's need. It is also possible to submit warranty claims directly from the personal area and also consult the archive of all your documents (*offers, delivery notes, invoices and the shipment tracking number*).

The webshop is the driving force of an important digitalization process aimed at simplifying the shopping experience and the customer care.

You can search, order and buy items through any mobile device such as notebooks, tablets and smartphones.

- EVERY ANSWERS in one click
- SEARCH BY VIN and engine type
- THOROUGHNESS and all existing cross-references
- PERSONAL AREA orders, documents and restricted functions
